

CYBER ESSENTIALS FOR YOUR BUSINESS

Cyber Essentials is a verified self-assessment for businesses to demonstrate their commitment to strong cybersecurity. By requiring that organisations can protect against the most common cyber threats, this Government-backed scheme has been designed to improve the overall protection of business in the UK.

Customers, third parties, supply chain partners, and even the government, all need assurances that your organisation has considered and implemented security. Cyber Essentials is a paid-for accreditation that proves just that. However, if you're unsure of your requirements, rather than pay a fee and risk a fail, Cyberfort can help guide you through the process.

Give yourself protection, give your suppliers peace of mind, and give your business the cyber essentials.

1

WHAT IS CYBER ESSENTIALS?

PROTECTED

At its core, Cyber Essentials is about keeping you and your business protected from a vast array of the most common cyberthreats

ACCREDITATION

The paid-for accreditation focusses on key areas of cybersecurity and explains the basic controls an organisation should have in place

DEFEND

Cyber Essentials leaves businesses with the knowledge, protection, and certification to defend against popular forms of attack

2

WHY DO I NEED CYBER ESSENTIALS?

ADOPT

The pandemic has forced us to adopt domestic technology that was never intended for business use

ALERT

Repelling common cyberattacks is a routine process but their sheer number makes particularly dangerous. A single success can be devastating

PREVENT 80%

Cyber Essentials can prevent 80% of cyber-attacks. Give third parties the assurance that you won't be putting them at risk.

SEND A MESSAGE

To show the world that you're serious about security. Send a message to would-be hackers and deter more serious attacks in future.

3

CYBER ESSENTIALS WITH CYBERFORT

GUIDE

Prepare your business for Cyber Essentials and let us guide you through your accreditation. Remove the uncertainty and risk.

QUALIFIED

The Cyberfort Group's Arcturus CREST qualified consultants can provide you with a truly independent assessment of your security

VALUE

Don't go into the assessment blind. Demonstrate your value to potential partners, let us put your IT processes and controls in place

CERTIFICATION

Prove you can manage risk for an immediate ROI. Certification is increasingly relevant for many modern contracts, and a necessity for government work.

LET US BE YOUR GUIDE

Don't leave your business' security to chance, show your partners how you mitigate risk, and let Cyberfort guide you through your Cyber Essentials experience.
